CSCS342 – Web Application Development

Assignment 1

Task

Using HTML5, CSS and Bootstrap you have to develop the landing page that is shown in the "Landing Page.pdf". The entire project has been setup for you, you need to use the images that are provided in the "img" folder and no other, furthermore you are to use the font family "Poppins" as your typography for the landing page.

Note:

- Do not plagiarize. This can lead to a straight F in the course.
- Proper plagiarism detecting software will be used to detect the plagiarism. Do not share your code or idea with anyone.
- Zip all your HTML, CSS files. Name this zipped folder as "YourRollNo" ONLY and drop it in the respective **Assignment 1** submission folder at Moodle.
- This is an individual assignment that will be marked during the lab along with VIVA.
- No assignment will be marked without viva.
- Submit the assignment at MOODLE as well in the same date before class, it will be LOCKED.
- Copied assignments will be marked ZERO.
- Late submissions will **NOT** be entertained.
- Email Submissions will **NOT** be accepted at all, and nothing gets marked from there.
- Deadline will **NOT** be extended.
- **Submission Deadline: 2nd November 2022, 9:59PM.**
- **Viva:** 3rd November 2022
